

**New Orleans Aviation Board Announces
Deputy Director of Aviation - Business & Financial Management**

The New Orleans Aviation Board has selected Henrietta Brown as Deputy Director of Aviation - Business & Financial Management for the Louis Armstrong New Orleans International Airport (MSY). In this position, she will be responsible for overseeing the business and finance matters airport-wide, including budgeting and accounting, financial planning and analysis, external audit preparations, coordinating airport financial goals with the City, and working to secure grants and bonds to finance capital improvements, air service development, and properties and business development.

Henrietta Brown, CM
Deputy Director of Aviation
Business & Financial
Management

Ms. Brown brings more than twenty years of finance and administration experience, with 8 of those years at mid-size airports in progressively responsible management roles. Most recently, she served as Chief Aviation Administration Officer at San Antonio International Airport. Prior airport experience includes Columbus Regional Airport Authority and St. Louis Lambert International Airport.

"We are very pleased that Henrietta will be joining our team," said Kevin Dolliole, MSY Director of Aviation. "Her strong experience, dedication and leadership style will be a perfect fit as MSY is going through a very significant transformative period. We are very fortunate to be adding someone of her caliber to our team."

Ms. Brown has a Bachelor of Science degree in Accounting from the University of Missouri and an MBA from Webster University. She also has a Master of Divinity degree from Eden Theological Seminary and is a Certified Member (CM) of the American Association of Airport Executives.

"I am excited to join the Louis Armstrong New Orleans International Airport and look forward to contributing to its continued excellence in financial stewardship and accountability," said Ms. Brown. "It is a great time to become a part of the MSY team to complete the expansion and new terminal project."
