

## The Port of Oakland Announces New Airport Operations Manager, Landside (Ground Transportation & Parking Services)

Jon Cimperman

OAKLAND, CA – The Port of Oakland has appointed Jon Cimperman as the new Airport Operations Manager, Landside (Ground Transportation & Parking Services). In this position, Mr. Cimperman is responsible for enhancing the overall customer service and experience, curbside management, parking, operations and revenue management and grounds transportation contractor management which include taxis, TNC's and shuttle busses. He began his new position in December 2018.

Mr. Cimperman has worked for the Port of Oakland since 2005, most recently serving as Engineering Project Manager. He has also worked for PGH Wong Engineering as a Deputy Project Manager. His projects included the San Francisco Bay Area Rapid Transit (BART) and the SFO AirTrain at San Francisco International Airport.

“In an industry that is continuously adapting and evolving, I'm very excited to work with a dedicated and energetic OAK team to deliver positive solutions to our partners and customers,” said Mr. Cimperman.

Mr. Cimperman received a bachelor's degree in Industrial Technology from California Polytechnic State University and has served as a panel member on two Airport Cooperative Research Program (ACRP) projects.
