

The City of Colorado Springs Announces New Air Service Development Manager

Josh Stone

COLORADO SPRINGS, CO –The City of Colorado Springs has appointed Joshua Stone as Air Service Development Manager for Colorado Springs Airport (COS). Mr. Stone will be responsible for directing the development and execution of air service development strategic objectives, key initiatives, and tactical plans to expand air service and increase airport usage. Mr. Stone began his new position Sept. 17.

Most recently, Mr. Stone was the Senior Manager, Schedule Optimization with United Express, where he was responsible for network operations planning, including detailed analysis of schedules to ensure that flying commitments were aligned to current and future crew, aircraft, and maintenance capabilities. Previously, he was Manager, Network Planning & Alliances for Embark Aviation. He also worked for American Airlines Group and Sixel Consulting Group.

“I’m very excited to join the team at Colorado Springs to build upon the success of recruiting new and enhanced air service,” said Mr. Stone. “I’m looking forward to being part of growing the economic engine that is COS and helping residents and visitors alike connect with what is important to them.”
