

## Materna US Announces New Senior Project Manager

Monica Serrano

DENVER, CO – Materna US has appointed Monica Serrano as Senior Project Manager to support the company’s U.S. Operations as well as customers in the aviation industry. In this position, Ms. Serrano will manage the delivery of projects including software and hardware components as well as construction site management.

Materna has been a leading player in the aviation industry for over three decades. Their customers include airports, airlines and ground handling companies including easyJet, Emirates, DNATA, Gatwick, Germanwings, Hamburg Airport, Lufthansa, John Wayne Airport, Swedavia, Oslo, Toronto and Vienna Airport. Materna is a leading IT consulting company, employing over 2,100 worldwide. Materna’s US office is in Orlando, Florida, with employees based over the country to support the North American aviation market. The company is fully focused on Airport Self-Service technology with numerous installations in the Americas of its market-leading Self Bag Drop technology.

Ms. Serrano has more than 30 years’ experience in the aviation sector, most recently with SecurityPoint Media as Vice President, Airport Operations and Network Development. She has also worked for HSS, Inc. – Aviation and Government Services as National Director of Aviation and Government Services, for Vasey Aviation Group, LLC, as Senior Project Manager, and has held progressively responsible positions with United Airlines.

“As a proven leader in airport self-service technology and passenger service solutions, it is an honor and privilege to join the Materna team,” said Ms. Serrano. “I am excited to be a part of the iconic Great Hall Project and look forward to delivering this modern and innovative technology to airport stakeholders, airline partners and travelers. I look forward to helping Materna provide DEN with solutions that support safety, security and passenger growth in the near term and for years to come.”

Ms. Serrano is an Airport Certified Employee (ACE) – Security through the American Association of Airport Executives.

This national search was conducted by ADK Consulting & Executive Search, a retained executive search firm.
