

I ✈ OAK

The Port of Oakland invites applications for
Senior Noise Abatement Specialist

Oakland International Airport (OAK)
Oakland, CA

EXECUTIVE SEARCH SERVICES PROVIDED BY ADK CONSULTING & EXECUTIVE SEARCH

The Airport

Oakland International Airport is the second busiest of the three international airports serving the San Francisco Bay Area, which is the third largest U.S. aviation market behind metropolitan New York and the Los Angeles Basin. In 2019, OAK ranked 39th in the U.S. in terms of total passengers and 14th in the U.S. in terms of air cargo tonnage. In 2020, OAK served 20% of the passengers originating or destined for the three Bay Area airports and 55% of air cargo thanks in large part to Federal Express' Asia Pacific Hub. OAK is the closest airport to the region's top business and tourism venues. It is also the closest airport for most of the Bay Area's nearly 8 million residents. Southwest Airlines operates its largest West Coast Focus City at OAK. The COVID-19 pandemic deeply impacted travel globally in 2020, however passenger activity is recovering. The Airport estimates demand will rebound to approximately 65% of Summer 2019 levels with Southwest, Spirit Airlines, and Allegiant Air resuming previously suspended service. Additionally, Frontier Airlines introduced service at OAK in February 2021 and Delta Air Lines introduced LAX service in April 2021.

The Airport *(continued)*

The vision of Oakland International Airport is to be the airport of choice for Bay Area residents and visitors alike. OAK is operated by the Port of Oakland, which also oversees the Oakland seaport and 20 miles of waterfront. Together with its business partners, the Port supports more than 84,000 jobs in the region with a \$130 billion economic impact. For updates, departure and arrival information, airport maps, and details on shopping, dining, ground transportation, and more, visit www.oaklandairport.com. The Airport has an active Social Media Program. Follow us on Facebook, Twitter, and Instagram.

OAK recently began a public process to plan for a future terminal modernization, replacement, and expansion project. Following completion of the separate state and federal processes, multi-phase development is expected to occur in the latter part of the decade. The FY2021 revenue budget (ending June 30, 2021) is approximately \$150 million, and Calendar Year 2020 saw approximately 4.6 million total passengers. The operation at OAK consists of more than 250 Port of Oakland employees across eight departments. The capital budget for 2020 was largely suspended due to the uncertainty of near-term revenues; however, as passenger recovery is in full swing, several projects are once again proceeding, which include:

- Redevelopment of all in-terminal food and beverage concessions
- Planning and design for restroom upgrades terminal-wide
- Completion of Taxiway and other airfield paving and upgrade projects
- Terminal signage, flight information & passenger messaging systems, and wayfinding upgrades terminal-wide
- Terminal flooring replacement in portions of both Terminals 1 and 2

Oakland has numerous innovation initiatives across all departments to enhance operations and the customer experience which will be implemented on a continual basis.

The Community

Located on the east side of San Francisco Bay, Oakland, with a population of over 400,000, offers 19 miles of coastline to the west and magnificent rolling hills to the east that afford one of the most beautiful views of the world – a beautiful bay, the Golden Gate and Oakland Bay bridges and the majestic Pacific Ocean. Oakland is the seventh largest city in the state of California and covers 54 square miles. Oakland is developing rapidly, with over 10,000 housing units recently completed or under construction and thousands more advancing through the city's permitting process.

Within its borders, Oakland features well-kept neighborhoods, a progressive, dramatically growing downtown, and superior cultural and recreational amenities. The heart of the East Bay, Oakland is home to a wealth of activities and attractions.

The city is surrounded by sparkling bay waters and rolling hills dotted with redwood forests. Visitors can boat, bike and hike amid spectacular natural surroundings.

Designated as an All-American City, Oakland is the center of the East Bay trade area, and is rich in history, impressive growth and a promising future. It is a city of transportation, health care, government, sports, education, and arts and culture. The 24,000 square-foot Oakland Asian Cultural Center is the largest and most modern facility of its kind in North America. The Oakland Museum of California (OMCA) is an interdisciplinary museum dedicated to the art, history, and natural science of California and is enjoyed by visitors and residents alike.

Oakland has seen a resurgence of restaurants to the area, and the Eat Real Festival, an annual celebration of good food with a focus on artisan food craft, street food, craft beers, local wines and delicious cocktails is a popular event in the community.

Some 80 different languages and dialects are spoken in the city, and a study conducted by the University of Wisconsin cited Oakland as being the most integrated city in the nation.

Recognized as a major transportation hub, Oakland is a city in which large corporate headquarters comfortably sit near traditional business and small shops.

With San Francisco Bay and the Pacific Ocean sitting at Oakland's doorstep, there is something fun and exciting for everyone who visits or resides in this cosmopolitan city.

The Position

The Senior Noise Abatement Specialist performs professional, lead work in the daily operation of the Airport's noise monitoring and flight tracking systems, including operating noise monitoring equipment and providing technical information for studies, preparing and presenting reports and maintaining the noise abatement website. The Specialist receives, reviews and analyzes noise complaints received from the Airport's noise "hotline," meetings and correspondence, researches and responds to inquiries and works to resolve all issues. He or she is the lead and subject matter expert on all issues related to noise abatement at the Airport. This includes providing lead direction and assisting other staff in the operation, maintenance, troubleshooting and repair of portable noise monitors (RMTs) and Airport Noise Monitoring System (ANMS), as well as the Geographic Information System (GIS).

The Specialist creates reports from the ANMS for Noise Forums upon request from the public and other agencies and also prepares written reports for the FAA, airlines, the Port, other interested parties as requested (or required) and also attends community meetings and makes presentations as required. He or she is responsible for the GIS maintenance as well maintaining the Airport's noise abatement website.

The Ideal Candidate

The Senior Noise Abatement Specialist will have a Bachelor's degree in Aviation Science, Air Transportation, Airport Management, Environmental Studies, Transportation or a related field from an accredited college or university, along with 3 years' experience in airport operations, including 2 years' experience using and maintaining an Airport Noise Monitoring System.

The Ideal Candidate will also have knowledge of airline composition and flight operations, airport noise problems and procedures, modern computer systems and applications related to noise monitoring and mitigation, web development software, computer graphics and business software. He or she must be able to make clear, concise and effective presentations and communicate effectively in a variety of formats. The ability to establish and maintain effective working relationships is essential along with the ability to exercise patience and understanding in dealing with subjects that are important to Airport neighbors and community.
