## Global Aviation Director

---

ADK Consulting & Executive Search is conducting a search for John Deere, a Fortune 100 corporation that is seeking a Global Aviation Director for their international business jet fleet.

If you thrive in the prospect of driving significant change in alignment with John Deere's transformational journey, corporate values, goals, and objectives, and are also a qualified commercial pilot, this is an exciting opportunity for you.

The total compensation package for this role is highly competitive and includes a solid base pay package as well as variable pay including short-and-long term incentive pay, equity opportunity, and a bonus. The benefits package is extremely competitive and comprehensive, including health, dental, vision and hearing coverage, a focus on wellness, a defined contribution retirement plan, paid time off program, and numerous other employee benefits and perks.

**JOHN DEERE**

## Preferred Attributes

John Deere is looking for a candidate who possesses the following attributes:

- Proven experience leading through a complex, matrixed, global business structure.
- A strong, collaborative leader with stellar communication skills, who can develop talent, build and develop teams, and strengthen organizational capability. Create possibilities from new thinking, generate disruptive change, and lead change.
- Experience in managing a department including providing strategic plans that align with corporate objectives, operation and maintenance plans, developing and managing a department and capital budgets (including the procurement and maintenance of aircraft), and overseeing the monitoring of all departmental financial and operational metrics to ensure that they are on track.
- Exposure to and comfortable with speaking and presenting before groups of employees, senior organizational leaders, boards, and other company related stakeholders.
- Experienced pilot with Airline Transport pilot certificate, Federal Aviation Administration First Class Medical Certificate with a minimum of 5000 flight hours and extensive worldwide operational experience. Hours requirement commensurate with experience.
- Experience in monitoring the status of crewmember's qualifications, flight standards, and ensures that all flight operations, records and filings are in accordance with applicable FAA and ICAO standards.
- Willingness to serve on aviation-related boards and committees and conveying a professional representation of the company to the aviation-related community. Experience in negotiating and managing department-specific contracts and agreements.
- Holds a Bachelor's Degree in aviation/business discipline preferred or equivalent experience.
- Seven plus years of experience in managing aviation and administrative professionals in a large customer service-oriented organization.
